

Flourish Education Secondary English Tutoring

Helping Young Minds Blossom

About Us:

Established in the summer of 2024, 'Flourish Education' was set up by Becca Martin after working in the classroom for 11 years. Having tutored part-time on evenings and weekends for nine years, it became very clear the enormous impact that private tutoring could have on student progress, confidence and outcomes.

When getting part-time hours in the classroom to work around my young children became an increasing challenge and funding was cut in the school I had worked in for over 10 years, it became very clear - this was now or never - and aren't I glad I made the jump!

Over the past year 'Flourish Education' has worked with over 100 students! Providing online 1-1 and group classes, English Language Courses and marking to students across the country. In that time, we have moved from only providing 1-1 classes to a vast range of services, including GCSE Masterclasses and GCSE Exam Coaching. These unique services allow me and my tutors to provide students with the tools to succeed and instil a level of confidence that can be challenging to gain in the traditional classroom environment.

I named the business 'Flourish Education' because our biggest goal was to play a role in student's lives, not only preparing them for their English studies and examinations, but also growing into young people who are able to meet challenges with perseverance, problem solve with confidence and achieve the success they deserve. We feel extremely lucky to play such a vital role for our students, and we love to watch them blossom!

What is a 'GCSE Masterclass'?

These sessions provide students with a clear understanding of what Examiners are looking for when marking their work. We then go through all of the necessary stages to ensure student success, from understanding the exam questions, planning and structuring responses and looking at high level essays/answers which address all elements of the mark scheme. These sessions are excellent for building students' clarity with Examiner expectations and how they can ensure their answers achieve the best possible marks, building confidence essential for success.

What is 'GCSE Exam Coaching'?

These sessions provide students the opportunity to apply all their understanding, best done in connection with 'Masterclasses', to unseen exam questions. During these sessions I am working with students to ensure they are applying knowledge and skills to achieve their best possible marks, guiding on strengths and developing weak areas through questioning and modelling. These sessions are designed to steer students towards addressing all elements of the mark scheme to the best possible level and also contribute to developing student confidence, giving that essential exam practise to remove any exam anxieties and insecurities they may be feeling and instead building the resilience and self-assurance that will help them so much on the big day!

Both GCSE Masterclasses and GCSE Exam Coaching sessions will run throughout the year up until exams. Any updates on these can be found on my Facebook or Instagram.
